

The screenshot shows the kfkigIS (Version 0.1.2) interface. The main window displays a map and a 'DialogView' titled 'Metadatenrecherche'. The dialog box has a 'Bearbeitungsschritte' (Processing Steps) list on the left, with '3) Suchkriterien' (Search Criteria) selected. The search criteria section contains a text input field with the value 'mbes' and a radio button for 'Anwendung der Volltextsuche'. A red arrow points to the 'mbes' text. In the left sidebar, the 'CS-W (Nokis)' option is highlighted with a red box and a red arrow pointing to it. The bottom of the dialog box has buttons for 'Zurück', 'Weiter', and 'Abbrechen'.

The screenshot shows the kfkGIS interface with a map of the Baltic Sea coast. A dialog box titled 'Feature: md30' is open, displaying the following metadata:

Attribut	Wert
Titel	Fedderwarder Priel mbes
Datum	Wed Apr 16 17:11:01 CEST 2008
Keyword	

A red arrow points from the 'Feature Information' icon in the left sidebar to the dialog box. A text box with the text 'Mehr Information zu den Metadaten' is also present.
